Crowdsourcing Annotations for Natural Language Tasks: An Evaluation

- What would you do if you had an on-demand army of thousands of annotators?
  - 10,000 labels / day
  - 1,000 labels / dollar
  - Expert-quality labeling or better (with some tricks)
- Results on five natural language tasks

Cheap and Fast - But is it Good? Snow et al., EMNLP-2008
